Experience

Sortwind Private Limited

October 2022 to December 2022

Full Stack Web Developer

Here as intern I worked on several real world projects and contributed from frontend to backend , along with this I also learned to work with team improved my professional skills and soft skills

Projects

Ayum- Health Care Web App

Full stack progressive web app

In this project I with my team created a Health care Full stack Progressive Web app using Next Js and Node Js , this is real world project for doctors to handle appointments and give user feature to book the doctor's appointment this app tested in real world where real doctors and users used this app and this app made their lives easier , it is hosted in Ayum.in domain name

Social Media Website

MERN stack web app

I have created an Social Media website with attractive UI/UX. in this website user can Sign-In. Login , Follow , Unfollow , Like , Dislike the posts and can himself also post images. I have used MERN stack web technologies for building this site .i have used Mongo-DB as database.

Education
